Warhammer 40,000, produced by **Games Workshop**, is the world's most popular miniature wargame. This 30-year-old game has experienced tremendous growth worldwide in recent years. The franchise is more popular than ever, with the highly anticipated video game

Space Marine 2 receiving great reception and a newly founded partnership with **Amazon** for films and television series.

Founded in 2024, **Veizla** has quickly become the largest Warhammer 40,000 community in Sweden and the Nordics. The community is built on key partnerships, including

- **Team Sweden** (the national Warhammer 40,000 team)
- **WTC 2024** (livestreaming the World Team Championship in Belgium)
- Organizer of the **Swedish Championship** in Warhammer 40,000 2024.

The two largest TV-channels in Sweden covered Veizla's Swedish Championship in Warhammer 40,000 2024

Now, **Veizla Mega** is the next big step—bringing a world-class **Warhammer mega-event** to the Nordic market and welcoming competitors from around the globe to experience an unforgettable gaming festival in beautiful Jönköping, Sweden.

- The Warhammer 40,000 community is truly unique and amazing. In today's digital world, it's refreshing to engage in a physical hobby. While hobbies like fishing or tennis are well-known, Warhammer 40,000 is like Fight Club—everyone does it, but no one talks about it!

Veizla Mega is designed to elevate an already thriving Warhammer 40,000 tournament community. This Mega event will raise the bar for Warhammer in the Nordics and be a **'must-attend experience'** for all tabletop and Warhammer enthusiasts!
